American Railroad Journal.

New York, Saturday, August 9, 1879.

Pennsylvania Railroad Improvements.

The extensions and improvements which the Pennsylvania Railroad Company is now making are extraordinary in their magnitude. Besides the contemplated elevated railroad, by which the termini of the line will be brought nearly into the heart of the city of Philadelphia, the improvements at the old Navy Yard, which will give the river one of the best wharves in the country, and the proposed connection with West Chester, the corporation is engaged in a number of enterprises which will not only greatly increase the business, but will also prove a direct benefit to the city.

A new feeder to the main line is at once to be built from New Bloomfield, the county seat of Perry county, eight miles to the Pennsylvania Railroad, at a point between Duncannon and Newport, at Losh's Run. The surveys for this will be finished in about six weeks, when the work of grading will be commenced, to be followed by the laying of the track in the spring. This spur will afford an outlet for the rich ore banks of the county, hitherto almost inaccessible. The Bellefonte and Snow Shoe Railroad is soon to pass into the control of this company. This is a Philadelphia road, with a paid-in capital of $600,000 and $99,000 first mortgage six per cent bonds. The object of the assumption of this road by the Pennsylvania Railroad Company is to obtain a shorter route to the East from the bituminous coal fields of the State.

The Pennsylvania Railroad Company also intends to reach out for coal in another direction by constructing a branch of the Southwest Pennsylvania Railroad from Paintersville to Connellsville. The Pennsylvania Railroad in Maryland will also be completed within the next two months. By this road the Pennsylvania Railroad will be brought directly to the Great Cumberland coal fields, and will become the chief transporter of the bituminous product.

Another important work is the straightening of the main line between Downington and Glenloch. For six miles there is a series of sharp curves, two of them being the governing curves on the division. The intention of the company is to build an entirely new line, perfectly straight, in place of the curved portion. This will result in a slight saving of distance and a saving of the wear and tear of rolling stock, estimated to be equivalent to hauling 200 cars a day for nothing. This work has been given out in five sections.

The most important work of the year is the Harsimus cove improvement. By virtue of its long lease of the United Railroads of New Jersey the company controls a considerable water front at Harsimus cove, about half a mile north of its Jersey City terminus, and just below the American stock yards. It is proposed to replace the pier at that point by a fine elevator and two new piers, which will be the largest on the river. One of these new piers will have dock room on one side of it only, the space on the other side being filled by twenty-four tracks, affording standing room for six miles of freight cars. The pier proper will be 120 feet in width by 1,810 in length. Above this there will be a second pier 175 feet in width by 1,320 feet in length. At the head of these piers will be a bulkhead, upon which is to be an elevator with a capacity of 1,500,000 bushels. The piers will be long enough to admit three ocean steamships in a row on each side of the piers, so that nine in all can be accommodated at once, and three loaded simultaneously. Proposals for this work will be invited soon, as the plans have already been approved by the directors.

Tennessee and its Railroads.

In reply to a letter of a correspondent who writes to know what the railroad companies lack of paying the debt created for building the roads, and how much the companies still owe, the Nashville American says:

It must be remembered that the railroads have no connection. Each company stood by itself, and some of them were worse injured by the war than others, while on many of them the war fell just as they were completed. Such roads were completely ruined, and had to be sold—some to the solvent roads, and some to the Louisville and Nashville Railroad, whose great interests in Tennessee make it really a Tennessee company, although with some natural sympathies for Louisville. The solvent roads owed the State for bonds issued to them, and after the sale for the purchase money to be paid for insolvent roads. These two make up the sums paid. The balance left of the railroad debt is the amount lost by the State in money raised for building the insolvent roads. It should be remembered, however, that as carriers of freight and passengers these insolvent roads are of incalculable benefit to the State, and especially to the communities through which they run.

In general, it may be said that the debt at the time of the sale of the railroads amounted to about $40,000,000, and by that sale and payments of their own indebtedness by solvent roads it was reduced to about $21,000,000. The amount now is about $24,000,000. We are not exact because of current interest. These figures are within a few hundred dollars. The $24,000,000 is the amount left, which includes capital, hermitage, and State debt proper, as it is miscalled.

Payments by the railroads have been, to give them accurately: for sales of insolvent roads, $6,698,000; interest from July 1, 1870, to January 1, 1880, $3,812,000; from solvent roads in payment of their indebtedness, $15,086,074; interest to January 1, 1880, $6,507,616. The whole amount paid then by and from sales of railroads was $32,104,490. Interest is calculated because interest would have been running if payment had not been made.

Our correspondent will see, then, that the solvent railroads have all paid the indebtedness to the State on account of bonds issued. They have also paid all the debt incurred by buying the insolvent railroads. In order to do this they have had to borrow money, for which they have issued

bonds, which are a lien upon the roads, on which they regularly pay the interest.

Aside from the part of the debt owed on other accounts, the debt owed by the State is the loss incurred through the insolvent railroads, the amount which they failed to bring at a sale. By what pretense, then, can it be argued that the railroads owe this balance? The railroads which purchased the insolvent roads bought them in good faith and paid for them, taking a clear title as they supposed, and paying full prices. If we had waited two years, the insolvent roads could not have been sold at all at anything like a fair price. It follows that if the purchasing roads should have to pay the bonds issued to the insolvent roads they have bought, the State would be obliged to pay the amount back to them.

Rutland Railroad.

At the annual meeting of the stockholders of the Rutland Railroad Company, held in Rutland, Vt., on the 31st ult., the annual report of the directors was read by the clerk as follows:

The financial condition of the corporation, as appears from the books of the Treasurer, is as follows:

BALANCE SHEET, JULY 1, 1879.

Capital stock		$2,480,600 00
Preferred capital stock		4,000,000 00
Mort. Equipment bonds	$1,000,000	
Mort. Equipment bonds on hand	895,800	
		104,200 00
First Mortgage bonds	$1,500,000	
First Mortgage bonds on hand	162,900	
		1,337,100 00
Mortgage bonds, 5 per cent	$1,500,000	
Mortgage bonds, 5 per cent on hand	394,900	
		1,105,100 00
Dividend scrip outstanding		63,299 49
Coupons unpaid		11,310 50
Bills payable		331,223 03
		$9,432,833 02
Construction account		$8,827,311 79
Real estate		115,925 87
Addison Railroad stock and securities		457,800 00
Rent due and unpaid		31,500 00
Cash		295 36
		$9,432,833 02

The receipts for the year ending June 30, 1879, were:

Cash on hand	$1 363 62
Rent of roads, (11 months)	286,000 00
Rent of real estate	728 45
Interest on receivables	9,084 00
Discount on 7 per cent equipment bonds	28,000 00
From sale of 5 per cent mortgage bonds	1,105,100 00
Total	$1,430,276 07

And the disbursements were:

Coupons on First Mortgage bonds and interest	$93,593 00
Coupon Equipment bonds in part to August, 1880	92,097 09
Dividend scrip paid	154,092 69
Equipment bonds, 7s and 8s, Exchanged	895,800 00
Rent of leased roads	59,000 00
Interest accounts	29,488 16
Salaries and miscellaneous expenses	10,999 05
Taxes	6,055 27
Bills payable, paid	32,005 03
Cash on hand	295 36
Total, as above	$1,430,276 07

The bills payable for the year would show an actual reduction of $74,011 62, but for the purchase of $70,000 of the equipment bonds.

The liabilities of the company, exclusive of mortgage bonds, are:

Old Rutland and Burlington Railroad bonds and interest, balance	$39,918 87
Bills payable	331,223 03
Equipment bonds outstanding	104,200 00
Dividend scrip outstanding	63,299 49
Estimated interest on dividend scrip	21,099 83

Assets applicable to the foregoing liabilities:

First mortgage bonds	$162,900 00
Mortgage bonds 5 per cent	394,900 00
Addison Railroad stock	332,800 00
Rent due and unpaid	27,500 09
Five per cent bonds received in exchange for equipment bonds purchased	118,300 00
Real estate, Burlington, Rutland and Rockingham, cash value	30,000 00

Reducing the above assets to a cash basis will give the following results:

Total amount 5 per cent bonds	$513,200 00
Required to retire scrip interest and equipment bonds outstanding	188,600 00
Balance of bonds	$324,600 00
$321,600 bonds at 60 cents	$194,760 00
$162,900 1st mortgage bonds on hand at 80 cents	130,320 00
Rent	27,500 00
Real estate, cash value	30,000 00
Cash value of assets	$382,580 00

LIABILITIES.

Old mortgage bonds and interest, Rutland and Burlington Railroad	$39,918 87
Bills payable	331,223 03
Coupons on bonds unpaid	11,310 50
	$382,452 40
Leaving Addison Railroad stock on hand	332,800 00

In consequence of the great reduction of our rent under the modified contract of lease, as stockholders are aware, it became necessary for us to ask of the holders of our equipment bonds, maturing in 1880, to exchange their bonds for the new 5 per cent bonds running 20 years; and also to ask our first mortgage 8 per cent bondholders to reduce their interest to 6 per cent. I am happy to be able to report to you on this subject, that all of the equipment bonds of both classes have been converted into the 5 per cent, except $104,200, and that $1,203,000 of the 8 per cent first mortgage bonds have been stamped to 6 per cent. It may be confidently expected that the holders of the remainder, both of the equipment and the first mortgage bonds, will eventually come into this arrangement, thus effecting an annual saving in interest of $55,000.

This report having been laid before the Board of Directors, is with their approval respectfully submitted. JOHN B. PAGE, President.

Rutland, Vt., July 31, 1879.

Mr. H. M. Whitney, in reviewing the report, said it was a very gratifying one and should inspire confidence as to the future of the company. He showed that there had been a clear reduction of the floating debt of about $100,000 during the past year, and made a brief analysis of the report, showing the indebtedness of the company and its income. He said the net income for the ensuing year would be $238,000, and the interest account accruing $184,000, leaving $104,000 to be appropriated to the payment of the floating debt, which would leave a balance of $227,000. The company had on hand $162,900 of first mortgage bonds, which the speaker believed would rise to par during the ensuing year, the sale of which would enable the company to still further reduce its floating debt by that amount, leaving a balance of only $70,000. To provide for this and the old Rutland and Burlington bonds outstanding, $40,000, the company owns $324,600 5 per cent bonds.

The condition of the company was such, the speaker said, as to command the confidence of the investors. The income of the road is fixed, and after the payment of the floating debt there will be a surplus of $80,000 annually, applicable to dividends on preferred stock. The management of the company, in bringing about this favorable condition of affairs, said Mr. Whitney, has certainly been able or it never could have been accomplished.

The report was unanimously accepted on motion of J. Mason Everett of Lowell, who said that in view of the unusually satisfactory condition of the road he thought more was demanded of the stockholders than a mere formal vote of acceptance. He therefore moved the following resolution, which passed unanimously:

Resolved, That the stockholders of the Rutland Railroad hereby express their satisfaction at the improved financial condition of the company, as appears by the report presented to-day from the books of the Treasurer.

A ballot for directors was then had, which resulted in the choice of the following gentlemen: John B. Page, James H. Williams, James W. Hickok, E. A. Birchard, Jacob E. Ward, Edward S. Mosely, and George W. Gill.

Directly after the stockholders' meeting the Board of Directors met and organized as follows: John B. Page, President; J. M. Haven, Treasurer; B. B. Smalley, Clerk of Corporation; J. H. Williams, Clerk of the Board; John Prout, Counsel; J. B. Page, Jacob Edwards, E. S. Moseley, G. W. Gill, J. W. Hickok, Finance Committee.

Prospectus of the Lesseps Canal Scheme.

Credit Lyonnais, New York Agency, Compagnie Universelle du Canal Inter-Oceanique (Inter-Oceanic Canal Universal Company)—Capital, 400,000,000 francs ($80,000,000)—New York, July 26, 1879.

The question of a ship canal uniting the two oceans has long been a favorite project with many celebrated engineers, and the want of a direct water way from the Atlantic to the Pacific ocean is one which has made itself felt by the mercantile world more and more each year.

The International Congress, in its session called for the purpose in Paris, last spring, after taking into most careful consideration the different routes proposed, finally decided in favor of the project of Lieutenant Wyse to open a water way through the Isthmus of Panama.

The merits of this special route, which shortens the way from the East to the West by 9000 miles, have been so fully brought before the public by means of the controversies of the press that they need no further comment. As to the great advantages which the United States in particular will derive from the enterprise, they cannot be overlooked, as it will create regular and more rapid intercourse by sea between the States situated on the shores of the two oceans. Thus will be realized, to the benefit of shippers, a considerable saving of time and money.

The Inter-Oceanic Canal Universal Company comes before the public as the first promoter of this great undertaking, and Mr. F. De Lesseps, who is so distinguished through his successful enterprise of the Suez Canal, is at the head of the company.

To enable it to accomplish the end it has in view, the company offers simultaneously to the public of Europe and America for subscription, 800,000 shares of 500 francs each, on a basis of a

5 per cent payment on subscription, 20 per cent payment on allotment, further calls to be announced at least three months before payment is required.

The sum thus raised will suffice to carry out the first portion of the works, and interest at the rate of 5 per cent per annum on the capital paid is guaranteed by the company to the shareholders during the time of the construction of the canal.

According to most careful calculations and by an exact study of statistics, guided by the experience of the Suez Canal, the company feels justified in expecting an annual passage of 6,000,000 tons through the Canal, which at the rate of 15 francs per ton, tariff rate, will furnish a gross amount of receipts of 90,000,000 francs.

The working expenses of the Canal, the expense of keeping it in order, and the sums set aside for sinking fund purposes represent an amount not to exceed thirty-five million francs, and, after taking into account a bonded debt, which may have to be added later on, the company hopes to be able to pay shareholders, on the completion of the undertaking, a yearly dividend of about 11 per cent.

Subscriptions for shares in the company will be received in New York, at the office of the undersigned, 120 Broadway, and also by their correspondents in other cities of the United States.

CREDIT LYONNAIS.

Finances of California.

The Treasurer of the State of California, has prepared his biennial report for the 29th and 30th fiscal years, as follows:

Receipts from all sources for the 29th fiscal year	$4,071,294 95
Receipts from all sources for the 30th fiscal year	3,709,870 77
Total	$7,781,165 22
Balance on hand July 1, 1877	1,408,177 43
Grand total	$9,189,282 65
Disbursements for the 29th fiscal year	$3,878,687 12
Disbursements for the 30th fiscal year	3,812,144 98
Total	$7,690,832 10
Balance in treasury June 30, 1879	1,498,450 55
Grand total	$9,189,282 65

The balance on hand in the interest and coupon account, July 1, 1877, $159,563 15. Total receipts, $652,577 44. The disbursements, $652,067 50. Leaving the balance on hand June 30, 1879, $160,073 09.

Railway Postal Cars.

The Jackson & Sharp Company, of Wilmington, Del., have just completed an order for fourteen railway postal cars to run between Richmond and New Orleans over the Richmond and Danville, Atlanta and Charlotte Air Line, Atlanta and West Point, Western of Alabama, Mobile and Montgomery and New Orleans and Mobile railroads. The cars are named after the States and cities through which they pass. They are fifty feet in length, one-third fitted up for the distribution of letters, one third for papers and second class matter and the rest for storage of through mail. They have all the most recent improvements to facilitate the distribution of mail. The letter and paper cases are made of ash and cherry varnished. The plan of the car is such that a much greater amount of matter can be distributed and put in bags than by the same force in cars heretofore built. They have Winslow's safety stove, Miller's platform and Westinghouse brakes, and are first-class in every detail. They are painted pure white and lettered "United States Fast Mail Railway Post Office." This was the largest order ever awarded for postal cars and the route is the best equipped of any in the country.

☞ The officers of the Annapolis and Baltimore Short Line Railroad Company, elected on the 1st inst., are: President, George S. Marsh; Vice President, James I. Waddell; Treasurer, Luther Giddings; Secretary and Solicitor, John Thomas Mason. A committee was appointed to conduct the immediate executive and financial work of the company. Also a committee to confer with citizens in the county and railroad officials as to the right of way and general aid. Mr. Marsh stated the grading could be done for $70,000. The intention is to build the road entirely by individual subscription, and the issue of bonds to protect the same. No legislative action or taxation is asked of the citizens.

☞ The Texas and Pacific Railroad is being pushed vigorously beyond Fort Worth, and will be completed as far as Weatherford by October. The country already penetrated by this road will produce a quarter of a million of bales of cotton this year, most of which will find its way north and east via St. Louis.

☞ The tracks of the Pittsburg and Lake Erie and Little Sawmill Run Railroads were connected on the 24th ult.

☞ Work has been commenced on the Pacific section of the Costa Rica Railroad.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "‡."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

Totals.....	$64,623,512 00	$323,117 56

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $12,596,053 39; balance of interest paid by United States, $31,116,397 19.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, July 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Total issues of 4 per cent Loan.....	$740,791,100 00
Amount not disposed of.....	730,900 00
Total amount authorized	$741,522,000 00

☞ The Cincinnati and Virginia Telegraph Company has been incorporated. The capital stock is $5,000. The line will run from Cincinnati through the counties of Hamilton, Clermont, Brown, Clinton, Highland, Adams, Ross, Pike, Vinton, Jackson, Scioto, Lawrence, Hocking, Athens, Perry, Morgan, Muskingum, Noble, Monroe and Belmont to Bellaire, in the latter county.

☞ The new Union Express Company, which is to take the place of the Adams Express Company on the Louisville and Nashville lines, will commence operations on the 20th of the present month.

☞ The number of miles of railroad in operation in France at the close of March, 1879, was 13,877½, against 13,416¼ miles at the close of March, 1878, an increase of 461¼ miles.

☞ Trains are now running on the Utah Northern Railroad to Camar, Idaho, 224 miles from Ogden, and 50 miles from the Montana border.

American Railroad Journal.

Saturday, August 9, 1879.

Financial and Commercial Affairs.

From the European markets, the reports have been of a rather more encouraging tenor, indicating some revival of activity, with a steadier range of values. Money at the prominent points of accumulation was in very liberal supply and quoted at very low figures, in the loan and discount line, at bank counters, and in open negotiations. In the home markets, the movements have been to a respectable aggregate, especially considering the very sultry and oppressive weather; and prices, in most instances, have shown decided firmness, and buoyancy. The export call for domestic produce has been fairly active, Breadstuffs attracting most attention. Money has been in more urgent request chiefly on speculative account, and early in the week advanced rather sharply in price, but soon reached to comparatively low figures, and closed about as easy for responsible borrowers, as at the date of our last, on freer offering, and a diminished call, even from speculative sources. Call loans closed here at 2 @4, generally at 2½@3½ per cent, on the pledge of satisfactory Stock or mixed collaterals, and best discounts at 3@5 per cent per annum. The U. S. Sub-Treasury now holds a coin reserve of $127,869,467, (a gain for the week of $492,733), and a currency balance of $36,639,388 (an increase for the week of $4,663,845.) The City Bank exhibit of last week indicated an increase in the loan and discount average of $6,697,500, and in the item of circulation of $45,300. The average of deposits was enlarged $11,387,700. The legal tender reserve was augmented $3,867,000,

and the specie average reduced $275,200. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $18,614,825, or an increase for the week of $244,875. The City bank exchanges in currency reached $491,715,201, or a daily average of $81,952,533.

A liberal offering and a very moderate inquiry have tended to further depress the market for Foreign Exchange which closed heavily. Bankers' sixty day bills on London closed at $4 81¾@$4 83; sight bills on London at $4 83½@$4 85 to the £ sterling. Cable transfers, $4 83¾@$4 85½. The specie outflow last week was only $83,400—making the total exports of specie hence since January 1, 1879, $11,682,098 against $9,306,952 the same time in the preceding year. The imports of specie at this port last week were to the amount of $157,061, and since January 1, 1879, have been $6,232,573 against $14,240,827 same time in the preceding year. The Customs drain for gold in the local market reached $1,840,788 or an average of about $306,798 per day. The week's imports of Dry Goods and general merchandise were to the specie value of $6,804,835 (of which $2,537,765 of Dry Goods), as against $5,967,086 the corresponding week of 1878. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $7,765,809 against $6,241,967 same week 1878, making the total exports of produce since January 1 this year $190,779,568, against $203,296,650 same period in 1878.

Government Securities have been pretty freely dealt in, during the week, chiefly for investment, and though some fluctuating in prices occurred, in sympathy with the changes in Money, the market wound up, as a rule, firmly, on a comparatively moderate offering of the favorities of the outstanding issues, the new Four per cents, and the currency sixes meeting with most favor. At the close on Wednesday the current quotations were as follows:

United States currency 6s, 121¾@125; do. 6s, 1880, registered, 104¼@104½; do. coupon, 104½@104¾; 6s, 1881, registered, 104¾@105; do. coupon, 104¾@105; 5 per cents, 1881, registered, 102¾@102⅞; do. coupon 102⅝@102¾; 4½ per cents, 1891, registered, 104⅞@105⅛; do. coupon, 106@106¼; 4 per cents, 1907, reg., 101⅞@102; do. coupon, 101⅞@102.

The amount of United States bonds deposited with the U. S. Treasurer at Washington for circulation during the week was $4,457,800. And of United States bonds held for circulation withdrawn during the week $4,820,000. The Treasury Department now holds $351,495,600 in United States bonds to secure the outstanding national bank circulation. The National bank circulation is now $328,580,147 of currency notes and $1,458,500 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $1,822,000.

A fair demand has been reported for the favorites of the State Loans which have been taken chiefly on investment account at generally firm prices closing rather buoyantly. Railway Mortgages have been moderately active and have been variable as to price, closing more steadily, on less urgent offerings. A brisk business has been reported in Railway and Miscellaneous share property which has been, as a rule, decidedly buoyant in price, though on Monday, a bearish movement occurred, helped by the course of Money, and by the sales to realize profits, from the preceding sharp rise; followed on Wednesday, however, by renewed strength, and leaving off with an upward tendency on the favorites of the general list. The business as officially reported, which on Wednesday of last week was about 159,000 shares, and on Thursday reached 224,000 shares, fell on Friday to 205,000 shares, and on Saturday was up to 208,000 shares, and on Monday of the current week was down to about 174,000 shares, followed on Tuesday by an aggregate of 185,000 shares.

The movements in Produce and Merchandise have been on a rather more liberal scale, but values have fluctuated considerably. Breadstuffs have been quite active but unsettled. Wheat has been freely dealt in, for export, and on speculative account, on, however, a weaker, and irregular market. Corn left off more firmly, with a better inquiry noted. Provisions have been moderately active at about former prices, closing steadily.

Metals have shown more animation, on a generally strong market. Of the sales were 16,000 tons Iron Rails for Fall delivery, on private terms, and 7,000 tons Steel Rails, for Spring delivery, at $47.

Less activity has been noted in Cotton which declined sharply and closed weak. Early deliveries left off heavily. Low Middlings closed for prompt delivery at 10 11-16@10 13-16; Middlings at 10⅞@11. Options left off for August basis of Middling at 10.88@10.84; September at 10.75@10.76; October at 10.28@10.24; November at 10 02@10.04; December at 10.01@10 02; January at 10.07@10.08; February, 10.12@10.15; March, 10.23@10.26.

Ocean freights have been quite active chiefly for the Grain trade at stronger rates closing, however, rather quiet. The firmer views of shipowners operating against free movements. Through freights quoted stronger, but showing less animation.

The following quotations of sales of Railway and other securities are in addition to those giver elsewhere in our columns:—

Transportation of Goods in Bond.

The United States Treasury Department has issued a circular to Customs officers relative to the transportation of goods in bond without appraisement, directing that on and after the 15th day of August, each opening of cars, vessels or vehicles laden with unappraised merchandise for immediate transportation shall be securely fastened with a lock and seal. The numbers on the seals and the numbers on the locks shall be carefully noted on the manifests. Cars, vessels, or vehicles so fastened shall not be opened between the ports of original importation and final destination under any circumstances, except in cases which may arise from a difference in the gauge of railroads, or from accidents, or from legal intervention, or from low water, ice, or other unavoidable obstruction to navigation; and in no case shall there be permitted any breaking of the original packages of such merchandise. Customs officers at intermediate ports are instructed to inspect all cars fastened with Customs locks and compare the numbers on the seals with conductors' manifests. Should there be no seal on the lock, or if there is any discrepancy between the number on the seal and that noted on the manifest, the car, vessel, or vehicle will be detained in the custody of the Customs officers and the facts reported to the department. Upon arrival at the ports of destination a careful examination of the seals will be made before the car is opened, a record of the numbers of the seals and also of the numbers on the locks will be kept and a report of the same transmitted to the department at the close of each month.

A Perfect Roof.

Railroad managers, acting with their architects, have tried in vain to find a perfect roof. They have experimented through the whole list of known materials and inventions for roofing, and finally ended where they began. Absolute fireproof qualities joined with lightness, durability, and low cost, are the necessary requirements for a roof covering a railroad building. All these requirements are now met in the Metallic Shingle manufactured by the Iron Clad Man'f'g Co., of 22 Cliff street, this city.

By a new process termed "calamining" these metallic shingles will not oxydize or rust as is the case of metal roofs when tinned or galvanized. This adds greatly to the durability of the roof. Compared with slate this new roof is less than one-fourth the weight, hence peculiarly valuable for pitch roofs covering large areas, as depots, etc.

The Boston and Providence Railroad Company have a large building in Boston covered with this shingle; also the depot of the Lockport and Buffalo Railroad at Lockport, besides a multitude of smaller public and private buildings.

It is believed that the Metallic Shingle will supersede all other fire proof roofing materials. When cost and durability are considered it is also much the cheapest. The Iron Clad Manufacturing Company will mail descriptive price-list when desired. They also solicit correspondence from Railroad Managers and all others interested in the construction of railroad buildings.

☞ The directors of the Pennsylvania Railroad Company having approved of the purchase of the Malvern Branch of the West Chester Railroad, for which negotiations have been for some time in progress, the road is to be immediately put in first class order. It is about nine miles long and runs from Malvern Station, on the Pennsylvania Railroad, to West Chester.

☞ The Ontario Silver Mining Company has declared the regular monthly dividend of Fifty cents per share for July, payable at the office of the transfer agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst.

☞ The Standard Consolidated Mining Company on the 2d inst. declared their regular monthly dividend of Fifty cents per share, payable Aug. 12, at the agency of the Nevada Bank No. 62 Wall street.

☞ The Lake Erie and Louisville Company has filed articles of incorporation with the Secretary of State of Indiana. The capital stock is $100,000.

☞ The Patent Coal Cart Company of Baltimore City has been incorporated by E. D. Onion and others.

☞ The Parker and Karns City Railroad was opened for travel on the 31st ult.

RAILROAD EARNINGS—MONTHLY.

Canton Company.

The following remarks in reference to the Canton Company of Baltimore are from a circular recently issued by Messrs. John A. Hambleton & Co., of that city:

The Canton Company of Baltimore was organized under a charter granted by the State of Maryland in the year 1828. It is a real estate company possessing the power to purchase and hold not exceeding ten thousand acres of land, to improve the same by laying out streets, squares, &c., to build factories, stores, dwellings, &c., and to lease, sell, &c., any portion of said lands for manufacturing purposes, or any wharf, house or other building or improvement, to be used in carrying on any lawful trade or business authorized by the laws of this State. The original charter limited the capital stock to 20,000 shares of $100 each, $2,000,000. An amendment to the charter in 1842, after 12,500 shares had been subscribed, and $65 per share—$812,500—had been paid in, fixed and limited the number of shares and the par value of each at these figures. In 1853 another amendment to the charter was obtained, authorizing the issue to the stockholders of four shares for one, which increased the number of shares to 50,000, without enlarging the capital stock, but in effect making the par value of each share $16 25. In 1858 still another amendment was obtained, which authorized the company to purchase its own stock, but withholding the power to re-issue the same. Under this authority the company bought and cancelled 5,700 shares at a cost of $155,710. The whole number of shares outstanding at this present time is 44,300 at $16 25 per share, $717,875. The stock of the Canton Company has sold as high as $1 10 per share, and is now selling at about 40, which, considering the par is only $16 25 and as there is no prospect of a dividend, is apparently high enough. The real estate of the Canton Company consists of 2,500 acres of land, partly within the limits of the City of Baltimore and adjacent thereto in Baltimore County, including a water front of 17,243 feet—4,373 feet of which bind upon the inner harbor of the city. A portion of this valuable water front is well improved, and yields a rental of about 20 dollars per front foot. A large portion of the company's property within the city is improved, warehouses, stores, factories and dwellings have been built and rented, a large number of ground rents have been retained by the company when the improvements have been sold. Of course it has taken a great deal of money for all these improvements, and for that purpose, and also to assist the Union Railroad, the company have issued their bonds to the amount of $1,711,000, and are authorized to increase this amount up to $3,100,000. They have also endorsed and guaranteed the bonds of the Union Railroad to the amount of $1,500,000. One-fifth of all the sales of the Canton Company's property is paid over to the trustees of the Canton Company sinking fund, to be applied to purchasing and cancelling the sterling bonds, issued under Act of 1872 (up to this time $25,000 sterling bonds have been bought and cancelled), and the balance four-fifths is paid over to the trustees of the first mortgage gold bonds, to be applied to the purchase and cancellation of these bonds. (Up to this time $38,000 Canton Company's gold bonds have been bought and cancelled). The Canton Company built the Union Railroad. It was a very expensive undertaking on account of the tunnel under the city. The Union Railroad connects the tracks of the Northern Central, the Baltimore and Potomac and the Western Maryland Railroads with tide water at Canton. The business of the Union Railroad has increased wonderfully of late. Three large elevators have been built at Canton, and they are not sufficient to hold the immense quantity of grain which is coming over the Northern Central Road from the West. The Northern Central Railroad is now contemplating the building of the fourth elevator. The Canton Company up to the last year was obliged (in addition to the assistance given to the Union Railroad in the shape of money advanced) to pay the coupons on the Union Railroad bonds which they had endorsed. The last fiscal year the Union Railroad earned the interest on its bonds for the first time, and now the President informs us that if business continues as good as is now promised they will have a surplus of $100,000 dollars to be handed over to the Canton Company. We think that time will prove that the building of the Union Railroad by the Canton Company was a wise undertaking, and that the money thus spent will richly repay the owners of the company. Much money must be spent on Canton to complete the contemplated improvements. But the rapid growth of trade in that direction must tell to the advantage of the company's property in the future. The report of the President of the Canton Company has just been issued, and while the present earnings of the company are not immediately remunerative to the stockholders, it shows a future value which may prove very satisfactory. The report of the company is for the fiscal year ending May 31st, 1879.

Pittsburg and Lake Erie Railroad.

A Pittsburg despatch says that Col. T. P. Roberts, who has been engaged in surveying a route over the Allegheny Mountains for the new Pittsburg and Lake Erie Railroad, arrived there on the 5th inst.

So far as can be learned the new route is run along the crest of mountains between the Allegheny and Youghiogheny rivers, the engineers rather "taking to the hills" than following the course of the mountain streams. The new road will touch at Mount Pleasant, and course its way to Somerset, the summit of the new line east.

This point, although approached at a grade almost imperceptible, will reach an altitude equal to the Gallitzan Tunnel on the Pennsylvania route. The line as surveyed will pass through Somerset, Berlin, Bedford, Mt. Dallas and Farrelsburg, thence to Shippensburg, at which point it will connect with the Harrisburg and Potomac Railroad, which is now being graded.

The new road will be fully thirty miles shorter than the route now traversed by the Pennsylvania road, but it will pass through a section of the State that is not rich in minerals of any kind, being an agricultural region. Whether the new road will be finally built depends much on the official report of the surveyors, which will shortly be submitted.

☞ The gross earnings of the Great Western Railway of Canada for the month of June, 1879, were $271,000, the working expenses $222,400, and the net earnings $48,600. For the month of June, 1878, the earnings were $273,500, the expenses $219,500, and the net earnings $54,000—showing a decrease in earnings of $2,500, an increase in expenses of $2,900, and a decrease in net earnings of $5,400.

☞ The track of the Kansas City, Emporia and Southern Railroad, recently built from Emporia, Kansas, to Eureka, a distance of 50 miles, was changed on the 4th inst. from narrow to the standard gauge. The work was accomplished by 300 men in 10 hours. The road is expected to reach Howard City in 60 days. Major S. B. Fuller is Chief Engineer.

☞ The Coplay Iron Company (limited), the successors of the Lehigh Valley Iron Company, and through whom the financial matters of the old company have been reorganized, have organized as follows: President, E. P. Wilbur, of South Bethlehem; Secretary and Treasurer, William H. Ainey, of Allentown; Superintendent, V. W. Weaver, of Emaus, Pa. The furnaces of the company, as soon as they have been thoroughly repaired, will be put in blast.

Sutro Tunnel.

A special dispatch to Kiernan's Wall Street News Bureau, dated San Francisco, August 5, says:

The lower levels of the mines in direct connection with the Sutro Tunnel are getting cooler, the more marked effect being in the Julia mine, although the temperature of the water that comes out of the 2,000 foot level is 160 degrees; that of the air has been reduced to 113. It is expected to decrease the latter below 100. All the northern mines are being benefitted by the Sutro Tunnel, and the Comstock lode is expected soon to have its surplus water carried off with as good results. The lateral drift of the Sutro Tunnel towards the Union and Sierra Nevada mines is making fair progress.

☞ A certificate of incorporation of the Annapolis and Baltimore Short Line Railroad Company was filed in the office of the Secretary of State at Annapolis, Md., on the 30th ult. The road will be entirely independent of all other roads, and the probabilities are it will be completed within twelve months.

☞ Information has been received that Mr. Franklin B. Gowen, President of the Philadelphia and Reading Railroad Co., has succeeded in negotiating a large loan for his road in London. He will reach Philadelphia about the last of August, when it is stated that a number of new enterprises are to be undertaken by his road.

☞ The Cincinnati and Newport Street Railroad Company, and the Newport and Cincinnati Street Railroad Company have been incorporated. Capital of each $25,000 in shares of $100. Incorporators, John A. Williamson and others.

☞ The Mayor of Buffalo has approved the action of the City Council granting the New York Central Railroad permission to unite its two branches by a track across the city.

☞ The earnings of the Union Pacific Railroad for the month of July were $1,068,049 79, being an increase of $130,077 62 over the corresponding month last year.

☞ L. A. Clark, of Petersburg, Va., has been appointed auditor of the Petersburg Railroad Company to fill the vacancy caused by the death of Maj. Dodson.

☞ The earnings of the Ogdensburg and Lake Champlain Railroad for the month of July, 1879, were $43,691 21, against $35,776 44 for the month of July, 1878—an increase of $7,914 77.

☞ The iron on the Shenandoah Valley railroad has been laid to within about two and a half miles of Berryville.

☞ Frank Jones has been elected President and George L. Treadwell Treasurer of the Portsmouth and Dover Railroad.

☞ Arrangements have been made to complete the grading of the Pittsburg Southern Railroad to the National Turnpike at Hillsboro.

☞ The Covington (street) Railway Company, Cincinnati, has been incorporated by E. C. Reemelin and others. Capital, $10,000.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of July, were:

ENTERED FOR CONSUMPTION.

	1878.	1879.

Total entered at port	$43,166,593	$50,547,422

☞ A request has been received from Nicaragua that Civil Engineer Menocal, United States Navy be allowed to visit that country and complete, under its auspices, the work on certain unfinished portions of the survey of the Nicaraguan route for the proposed inter-oceanic canal. Mr. Menocal formerly did work under that Government. The request for his aid now has been granted by Secretary Thompson, to whom it was referred. Mr. Menocal will soon leave this country for Nicaragua.

Blast Furnaces.

The following is a recapitulation of a table published in the Iron Age showing the condition of the blast furnaces in the United States July 1, 1879:

	In blast, July 1, '79.	Out of blast, July 1, '79.
Charcoal.....	81	176
Anthracite.....	101	125
Bituminous	95	107
Total.....	287	408

Since the first of July a number of furnaces have been blown in and some are out of blast that were then blowing. The difference is in favor of the former, so that the number of furnaces now in blast is greater than that given above. Making a comparison between the condition of the furnaces on the 1st of July, 1877, 1878, 1879, we have the following:

FURNACES IN BLAST JULY 1.

	1877.	1878.	1879.
Charcoal..	87	64	81
Anthracite.....	87	95	101
Bituminous	85	89	95
Total	259	248	287

FURNACES OUT OF BLAST JULY 1.

	1877.	1878.	1879
Charcoal..	181	202	176
Anthracite.....	139	130	125
Bituminous	123	128	107
Total.....	443	460	408

The percentage of furnaces in and out of blast July 1, 1877, 1878, and 1879, is as follows:

	In blast.			Out of blast.		
	1877.	1878.	1879.	1877.	1878.	1879.
Charcoal....	32	24	34	68	76	66
Anthracite..	38	42	44	72	58	56
Bituminous	41	40	47	59	60	53

Contrary to what is the generally received idea, the increase in blowing furnaces, as show by this table, is not among anthracite, but among the charcoal and bituminous furnaces. While this is true when the same dates for each of these three years are compared, a comparison of the beginning of each of the three quarters of the present year shows a different condition of affairs, as will be seen from the following:

FURNACES IN BLAST IN 1879.

	Jan. 1.	April 1.	July 1.
Charcoal.....	79	68	81
Anthracite	96	89	101
Bituminous	82	80	95

FURNACES OUT OF BLAST IN 1879.

	Jan. 1.	April 1.	July 1.
Charcoal.....	180	191	176
Anthracite.....	130	137	125
Bituminous	123	123	107

This table shows the increase in the Anthracite region during the past three months, and it is a very encouraging exhibit.

☞ Referring to the mortgage bonds of the Baltimore and Towsontown Railroad Company, recorded July 16, 1860, the Baltimore Sun says that the company projected a road between the points named, and laid about one mile of track, when it proved bankrupt, and the track and other effects were sold to satisfy the contractor's claim. The charter of the company was forfeited by its failure to complete the road within a specified time, and the bonds, together with all other of its obligations, are entirely valueless for all legitimate purposes.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending July 26, as reported by the several carrying companies, amounted to 557,181 tons, against 448,269 tons in the corresponding week last year, an increase of 108,912 tons. The total amount of anthracite mined for the year is 18,862,509 tons, against 8,192,735 for the same period last year, an increase of 5,669,774 tons. The quantity of bituminous coal sent to market for the week amounted to 85,698 tons, against 100,686 tons in corresponding week last year, a decrease of 14,988 tons. The total amount of bituminous mined for the year is 1,920,465 tons, against 1,720,510 tons for corresponding period last year, an increase of 199,955 tons. The total tonnage of all kinds of coal for the week is 642 879 tons, against 548,955 tons in corresponding week last year, an increase of 93,924 tons, and the total tonnage for the coal year is 15,782,974 tons, against 9,913,245 tons to same date last year, an increase of 5,609,729 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of July was 129,305 tons, of which 101,404 tons were coal, and 27,901 tons coke. The total tonnage for the year thus far has been 3,144,033 tons, of which 2,405,492 tons were coal and 738,541 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending July 26th were the heaviest of the present year, having been 48,105 tons. For the year to that date they were 873,562 tons, 69,093 tons more than in the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 24,198 tons, for the year 514,013 tons, an increase of 55,821 tons, as compared with 1878. The shipments by the Chesapeake and Ohio Canal for the week were 19,871 tons, and for the season 266,927 tons, a decrease of 20,016 tons as compared with last year. The shipments to the Pennsylvania Railroad were for the week, 4,036 tons, for the year 92,623 tons, an increase of 34,087 tons as compared with 1878. The Reading Railroad Company reports a coal shipment for the week ending on Saturday evening last of 185,000 tons, of which 79,000 tons were sent to Port Richmond, and 77,000 tons were shipped thence. Vessels are scarce at Port Richmond. The receipts of coal at Perth Amboy during the week ending July 26 were 36,109 tons, and the shipments 29,297 tons, leaving on hand 128,742 tons.—*Phila. Ledger, Aug.* 4.

New York Stock Exchange.

The Governing Committee of the Stock Exchange have admitted to the list the following bonds and stocks:

Cecilia Branch, Louisville and Nashville Railroad, first mortgage, $1,000,000, 7 per cent, March and September, due in 1907.

Northern Pacific Railroad common stock, 490,000 shares; preferred stock, 438,000 shares.

Houston and Texas Central Railway first mortgage, main line, Western Division, and Waco and Northwestern Division; consolidated second mortgage, main line, Western Division, and Waco and Northwestern Division; also, income and indemnity mortgage.

Mobile and Ohio Railroad first mortgage 6 per cent bonds, four series of debentures and new stock; the old stock and sinking fund bonds to be removed from the list.

Metropolitan Elevated Railway Company's stock, $6,500,000, in $100 shares.

Central Arizona Mining Company's stock, $10,000,000, in 100,000 shares of $100, not assessable.

Leadville Mining Company's stock, $2,000,000, in 200,000 shares of $10, not assessable.

Caribou Consolidated Mining Company's stock, $1,000,000, in 100,000 shares of $10, not assessable. This latter company is incorporated under

the laws of the State of New York, and its property consists of mines in Boulder county, Colorado. Apart from the fact that the stock has been admitted to the list (always a difficult matter to be attained by a mining company), and that the management is in the hands of well known and capable men, it is stated in favor of the property that the mine is the most thoroughly developed and the crushing mill the most complete of any in the State of Colorado. Monthly dividends of one per cent are being paid, with ore enough in sight to promise a continuance of the same for an unlimited period.

Well Merited Compliment.

Mr. Wharton Barker, the energetic young Philadelphian under whose agency the Philadelphia contracts for purchasing and building Russian war vessels were carried out, was decorated, day before yesterday, by the Emperor Nicholas, at St. Petersburg, during the imperial review of the Russian fleet. Mr. Barker was presented to the Emperor by the Grand Duke Constantine, in the presence of the Empress and the Grand Duchess. M. Semetzkin and others. The imperial party boarded the steamship Europe (which was formerly the California, built at Cramp's ship yard), purchased for the Russian Government. Mr. Barker, who is the son of Mr. Abraham Barker, is a rare combination of a scholar and a business man. His firm is engaged, among other enterprises, in the manufacture of the Wharton Safety Switch on which account he has made former visits to Russia. While thus actively at work for Philadelphia business interests, Mr. Barker finds leisure to devote to good literary work for the pages of a leading Philadelphia magazine, and his home at Chelten Hills is a centre of hospitality for foreign visitors. The Russian friendships and connections would seem to be hereditary in this family. Fifty years ago Mr. Barker's grandfather, Mr. Jacob Barker, sold one of his ships to the Russian Government, a thousand ton vessel, a big ship for those days. It was American built, from a New York shipyard, a merchant vessel taking its first cargo to Cronstadt, on its way to the Mediterranean. The Emperor Alexander happened to get a full view of it, and inquired if it was for sale. The answer came that it could be bought, but was subject to charter party. On its return from the Mediterranean it was turned over to the Russian Government, pierced for three guns, and sent out to Brazil as a ship of war. Mr. Wharton Barker is among the younger men of Philadelphia who are taking their places early in winning distinction at home and abroad for themselves and for Philadelphia also.—*Philadelphia Ledger, Aug.* 2.

Appropriations for Rivers and Harbors.

The amount appropriated for the improvements of rivers and harbors during the last session of the Forty-fifth Congress has been transferred to the credit of the War Department, it having been determined by the President that the entire amount should be expended during the current fiscal year for the purposes indicated in the act. The amount appropriated is $9,577,495.

☞ The Westford (Conn.) Gold and Silver Mining Company have had assays made of rock from their mine in Westford, with gratifying results. The assays of surface rock show an average of $20 gold to the ton. Mr. Chollar, who was the first to work the Chollar mine of the Chollar lead, is President of the company. Machinery will soon be put in and this new Connecticut mine will be opened up.

☞ A book for subscriptions to the capital stock of the Suburban Rapid Transit Railway Company was opened by the Commissioners in the office of the Central Trust Co. on the 5th inst. The book can remain open, if necessary, until April 2, 1880, one year from the date of the appointment of the Commission.

☞ The trustees of the Cincinnati Southern Railroad have contracted for the building of 15 locomotives, 10 first class passenger coaches, and about 600 freight, flat, and coal cars. All of the above are to be delivered on the road by the 1st of December, in anticipation of its completion to Chattanooga by New Year's Day. The contracts amounts to over $500,000.

OFFICE OF THE ONTARIO SILVER MINING CO., NEW YORK, August 4, 1879.

DIVIDEND NO. 46.

The investigation of frauds on Railway Companies a specialty

Valuation of Kansas.

We learn that the State Board of Equalization has completed its labors, and on the 29th of July Auditor Bonebrake sent out the apportionment of State taxes to the several County Clerks. There was no assessment of real estate this year, but, notwithstanding a healthy increase in total taxable property of the State is shown.

The total taxable acres amount to 20,954,847, an increase of 878,205 acres over 1878.

Valuation of lands, 1879	$83,228,848
Valuation of lands, 1878	79,969,537
Increase	$3,259,311
Valuation of town lots, 1879	$17,874,279
Valuation of town lots, 1878	16,725,918
Increase	$1,148,361
Valuation of personal property, 1879	$27,334,715
Valuation of personal property, 1878	25,606,163
Increase	$1,928,552
Valuation of railroad property, 1879	$16,165,829
Valuation of railroad property, 1878	15,525,023
Increase	$640,806
Total increase of all taxable property, as returned by County Clerks	$6,977,080

The State Board increased the valuation of personal property in some of the counties and reduced it in others, so that the actual increase, as fixed in 1879, over the amount as fixed by the same board in 1878 is $6,231,469. The aggregate taxable property of the State amounts to $143,930,279. The tax levy, as fixed by the Legislature, will raise ample funds to meet every demand on the State for the fiscal year and leave a handsome surplus in the treasury.

☞ A mortgage on the Charlottsville and Rapidan Railroad was recorded in the clerk's office of Henrico county, Va., on the 25th ult., and it is stated that work will be begun in about three weeks.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,
(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.
